# CAMRA is asking Welsh politicians to:

makers, now and in the future.

As a consumer pressure group, wholly

independent of commercial vested interests,

the crisis facing community pubs in Wales.

CAMRA is uniquely placed to be able to set out

a comprehensive set of policy options to tackle

Every single week, four pubs in Wales close.

The Welsh Assembly Government has the

power to implement policies which will

protect Welsh pubs, brewers and cider

Introduction

- (1) Represent the interests of Welsh pub goers, beer and cider drinkers
- (7) Support the economic growth of Wales' 50 small breweries and cider producers
- ensuring that they are properly protected
- and not-for-profit members clubs.

### Planning loopholes are being systematically exploited by developers, to the detriment of Welsh communities and consumers.

### The Welsh Assembly Government should:

- Strengthen its Planning Policy Statement to enhance protection for well-run community pubs
- Close the current planning law loophole that allows pubs and other local services to be demolished without the requirement for planning permission or any community consultation
- Require that planning permission to convert a pub to another use is only granted following an independent assessment of business viability and community need by the planning authority.

### Supporting Community Pubs

Well-run pubs play an important role at the heart of our communities. Pubs provide a safe. regulated environment in which to relax with a drink, and mix with people of other age groups and backgrounds. Increasingly, pubs are also providing other essential services including post offices, shops and meeting places – especially in rural areas. However, the regulatory and taxation burden on pubs means many are

struggling to survive.

The Welsh Assembly Government should support well-run community pubs by:

- Introducing new classes of business rate relief for local services, including pubs, which are centres of community life and/or sell a high proportion of local produce
- Introducing small businesses rate relief for pubs.

### The Beer Tie

The unfair operation of the "beer tie" by large pub companies is artificially inflating the consumer price of beer, reducing consumer amenity in pubs and increasing the rate of pub closures. Tied licensees are forced to buy beer at prices inflated by 40% and can only stock a limited range of beers. This prevents small and regional Welsh brewers from accessing the market.

 The Welsh Assembly Government should seek additional powers to legislate so that pubs with beer tied by large pub companies can sell at least one locally produced beer or cider purchased on the open market.

### Support for Small Welsh Brewers

There are over 50 brewers and real cider makers in Wales but these small Welsh producers are struggling to sell their products due to the market dominance of four global brewers who brew over 80% of the beer sold in the UK.

The Welsh Assembly Government should support Welsh producers and encourage new market entrants by:

- Promoting the availability of grants and loans which are available to small brewers
- Working to ensure that small brewers in Wales are protected through the retention of small breweries' relief
- Supporting research into the potential for hop and malting barley cultivation in Wales, and encouraging Welsh farmers to grow these crops thereby giving Welsh beer products stronger local provenance
- Raising the profile of the sector as part of the Government's work to support the economic growth of Wales' food and drink industry.

### What is CAMRA?

CAMRA was set up in 1971 and has a growing membership of more than 120,000 individuals across the UK – including over 3.000 in Wales.

CAMRA is a not-for-profit, volunteer-led consumer organisation funded by members' subscriptions, sales of publications and proceeds from beer festivals.

### CAMRA aims to:

- Maintain consumer rights
- Promote quality, choice and value for money
- Support the public house as a focus for community life
- Increase appreciation of traditional beers and ciders
